

## Press Release

### *Career* TEAM's National Valentine Fundraiser for Haiti

North Haven, Connecticut 2011-

On February 14, 2011 *Career* Team offices held its second fundraiser for a Haitian Orphanage that houses children with special needs. After the devastating earthquake that hit in early 2010, *Career* Team wanted to help make a difference and after much research decided that the orphanage would be a good place to start. Our own Mr. James L. Johnson headed to Haiti soon after the earthquake to survey the damage to the orphanage firsthand. After hearing of the horrific conditions of the orphanage and surrounding area, it was apparent that *Career* Team must act quickly to make sure that the lives of the children were not compromised. It was then that *Career* Team employees rallied to offer support for this extraordinary cause. While our initial fundraiser was successful, we knew that we could do much better and on Valentine's Day this year, we did just that. CareerTEAMers showed their support for the children by wearing pink and red. We are happy to report that each *Career* Team office has adopted several children and continue to help support the successful operation of the Orphanage.
